FORENSIC CSI WEBINAR

Leisa Nichols-Drew NTF ChFP CF

Senior Lecturer – Forensic Science

De Montfort University, Leicester

DE MONTFORT UNIVERSITY LEICESTER

Overview

- ✓ Varied Audience: Educators (FE+HE), Practitioners, Trainers
- ✓ On Campus, At Home (Remote), Online = Blended Approach
- ✓ Covid 19 Response: Current Resources, Novel Approaches
- ✓ Accreditation Requirements: ISO 17020, Chartered Society of Forensic Sciences (CSoFS)

DMU: Crime Scene to Court

Virtual Immersive Facility: ‘The Cube’

On campus scenes: PPE, Social Distancing, Small Groups

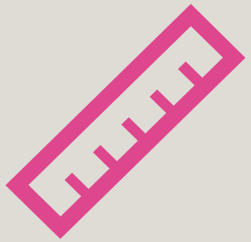
App (fee required)

Useful for accreditation, quality processes and standard operating procedures ISO 17020

Headsets

Tablets

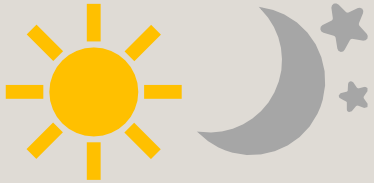
Scene Capture: At home (remote) and on campus



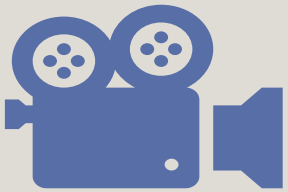
Measurements

Photography

Lighting Conditions



Augmented Reality (AR) using mobile phone e.g. Google Animals, Pokemon Go



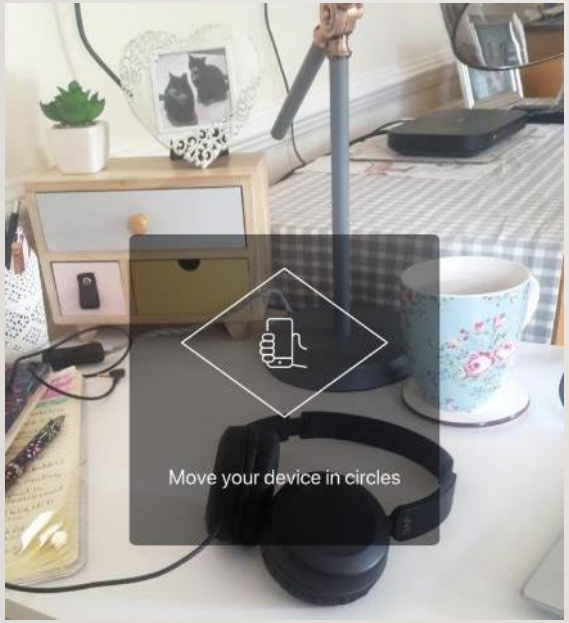
Videography

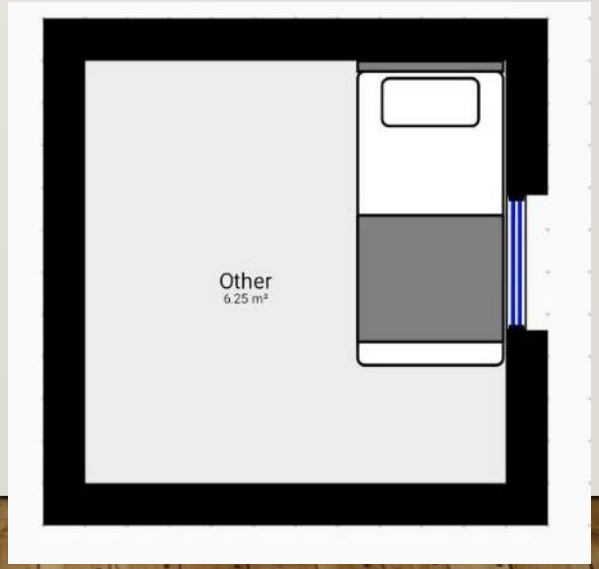
Scene Plans

Locations

AR App and Online Cloud

magicplan

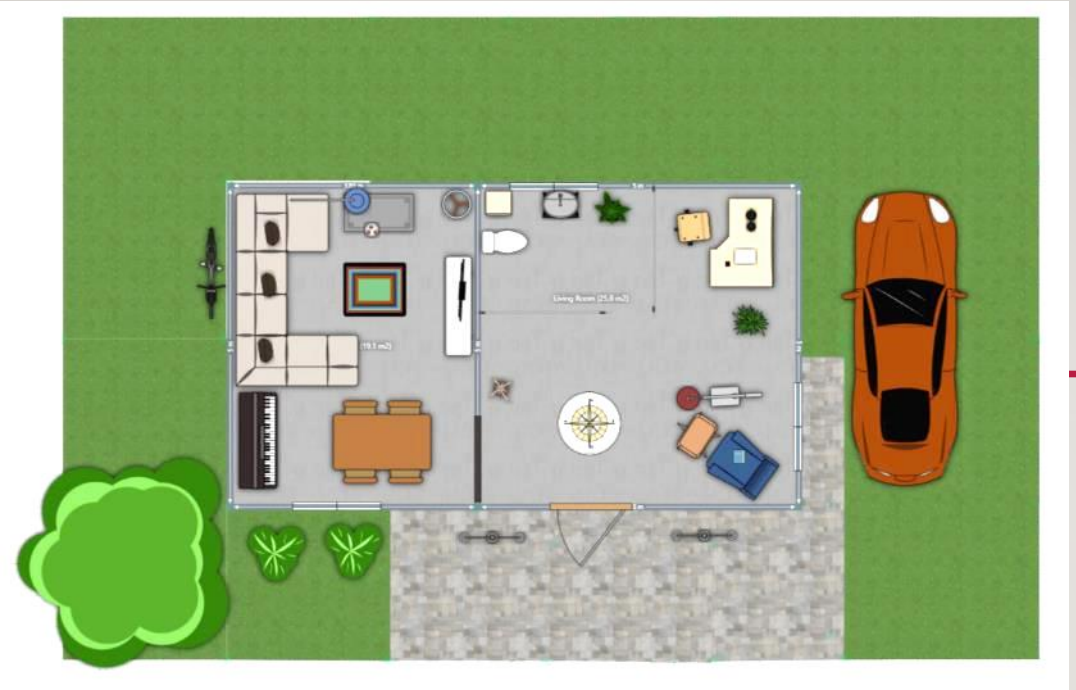




Immersive Scene Simulation

- Animations, 2D and 3D

Planner 5d



Vehicles

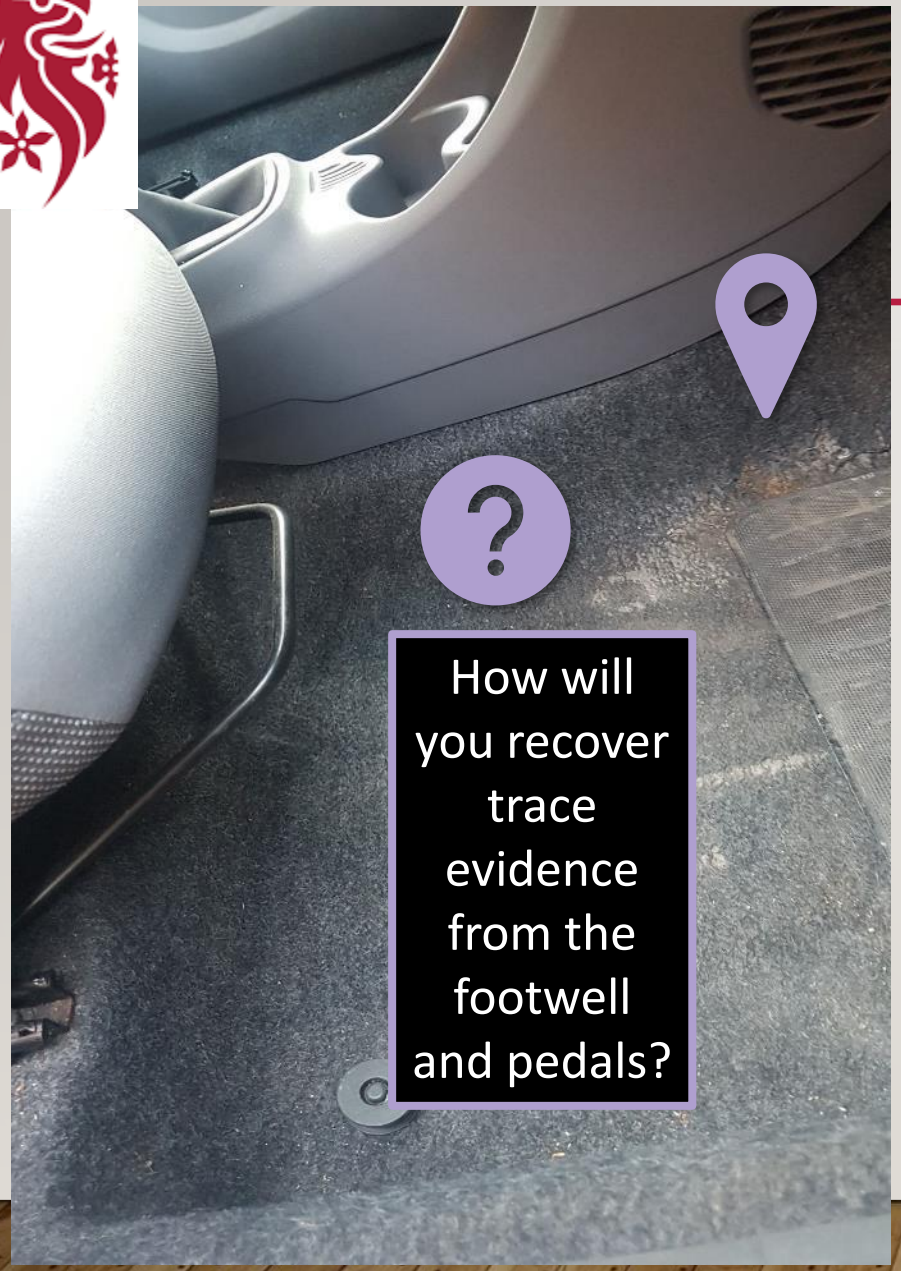
- Excellent Resource!
- Range of offences (volume, major)
- Link people, scenes, animals, other vehicles
- Different terminology and hazards
- Search Approach - zones
- Order of Examination
- Evidential Traces

Airbag **Nearside** **Offside** **Wheel Arch** **Seat Squab**

Parcel Shelf **Footwell** **Glove Compartment** **Boot/Trunk**

Bonnet/Hood **Bumpers/Fenders** **Dashboard**

Front Offside Footwell



How will you recover trace evidence from the footwell and pedals?

In the UK, a vehicle with the steering wheel on the right side is referred to as the Front Offside. The passenger side would be the nearside as it is nearest the pavement and kerb.

Scene ‘Interaction’: 3D Models

DMU CCTV

Experiential Learning: Critical Thinking

Review

Problem Solving

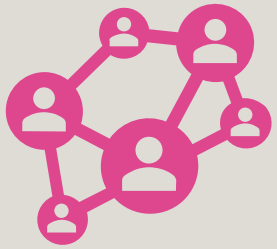
Feedback

Quality Procedures

Health and Safety

Risk Awareness

Online Resources Ideas

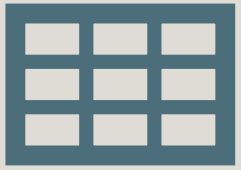


Online Briefings

Team or Solo Working

Incident Boards

Casefile



Investigation Budget

Continuity/Scene Logs

Gamification

- Escape Room Ethos
- Evidence Search
- Questioning
- Rationale
- Bias and Ethics
- Internationalisation (varied CJS)

Virtual Museum, Canada

http://www.virtualmuseum.ca/sgc-cms/expositions-exhibitions/detective-investigator/en/game/index.php

Virtual Reality (VR) Technology – Numerous Approaches

Simulation

360º

- Use bespoke 360º equipment e.g. Ricoh Theta cameras ,Visor Headsets, and editing software
- Google Earth – free resource!
- Online 360º videos and images
- Adobe Captivate and Creative Cloud – immersive software

Green, H. & Mayne, R. (2020), Virtual Reality for Teaching and Learning in Crime Scene Investigation, Science and Justice

Other Resources

- Scenario based simulations (RE:SIMION)
- Unmanned Aerial Device (UAV) or 'Drone' Footage of Collision Scene Reconstruction: https://www.youtube.com/watch?v=_WCgCnmcaA4 and missing person investigation https://www.youtube.com/watch?v=nE3obE08T1s&feature=youtu.be and crime scene imaging https://youtu.be/r8-6fQxTSKA
- Crime Pad (recording system as used in USA)

Thank you! … Any Questions?
