

Three National Teaching Fellows and Forensic Scientist came together to form ..

## #RemoteForensicCSI

Create a collaborative environment for sharing best practice in the teaching of crime scene investigation, forensic analysis and courtroom assessment

CRIME SCENE DO

# Crime Scene Investigation

Resource Guide

Talk on Remote Crime Scene Investigation at 1st #RemoteForensicCSI event on 5th Aug

1

## MAGICPLAN APP

AR (Augmented Reality) feature enables you to scan your environment and create 2D/3D plans with measurements. Useful for FE and HE.

2

## PLANNER 5D

Create 2D/3D animated crime scenes for you to explore – you can choose the room layout and furniture. Options to include vehicles too. Useful for FE and HE.

3

## RESIMION

Generate interactive simulated scenarios for problem-based learning – crime scene, interviews, laboratory setting and court sessions. Useful for HE and FE.

4

## VIRTUAL MUSEUM CANADA - SCENE INVESTIGATION GAME

Participate in three scenes and find the evidence, interact with experts, make investigative decisions, consider ethics and bias, consider version of events. Useful for FE and HE.

5

## CRIME SCENE ASSISTANT APP (FEE REQUIRED)

Excellent resource for engaging with risk assessments, quality processes and standard operating procedures at the crime scene. Engage from four perspectives. Very useful for HE and FE.

6

## NFSTC

Brilliant free resource (downloadable pdf) which is a comprehensive guide to crime scene investigation within the US Criminal Justice System. Useful for comparing to other Criminal Justice Systems. Great for HE and FE.

7

## CSI NETWORK - CRIME SCENE & EVIDENCE PHOTOGRAPHY

Comprehensive website with resources for approaches to crime scene photography, videography, procedures for digital media, admissibility in court, UV photography, IR photography, also resources from SWGIT (Scientific Working Group on Imaging Technology). Very useful for HE and FE.
